

## FALL PROTECTION ANCHORAGE VERIFICATION

- What method are you using to confirm the strength of different anchors you are using?
- How do you confirm they are installed properly?
- What is your liability if someone ties off to an anchor and it fails?

3-E Safety Services will come to your site to Verify, Certify and Document that the anchor was installed properly and will hold 3600 pounds of pull. Each Anchor will be tagged and a report will be given with each anchor GPS documented and date stamped with the pull test that was conducted. Each anchor will be recertified for 1 year from the test date.  
Cost

\$350 for the first anchor then \$75 for each additional an anchor

Special pricing for more than 15 anchors

Terms and conditions are attached. 3-E Safety Services or its employees cannot be held responsible for any damage that may be caused by the testing. This is a verification test and is not a test to fail application but damage may occur to the product.
